

Standard Polyaspartics Color Guide

Color approximates a close appearance of the actual coating. Factors such as texture, lighting, size and shape of the project, and application method may cause color variances. When color is a critical issue it is recommended that actual coating or overlay samples be used for approval.

Stone Gray

Dolphin Gray

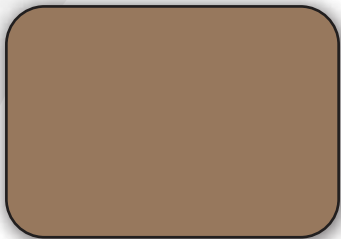

Battleship Gray

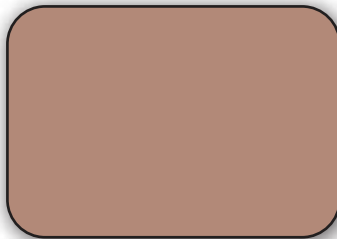

Tan

Indian Sand

Brown

Ash Brown

Red

This color guide is only an approximation of color for computer monitor or color printer representation. Various types of computer monitors, graphic cars and color printers all have their own special characteristics for displaying and printing colors. All monitors and printers will show slight variations in color from on model to another. Crown Polymers cannot guarantee that the colors you see on your monitor or print on your color printer will correspond exactly to the actual Crown Polymers' color range.

When color matching is critical, please request a drawn down film sample from Crown Polymers before placing your order.
